### **Chad Keith**

Production Designer

Keith has designed for indies "Martha Marcy May Marlene" for director Sean Durkin and "Take Shelter" for Jeff Nichols. He recently completed his first studio film, "Midnight Special" (Nichols' follow up to "Mud") starring Kirsten Dunst and Michael Shannon, for release in 2015. "Designing a bigger-budget film gives you more bells and whistles," he says, "but my goal stays the same: create the most realistic environments for the script to unfold in while matching the director's vision."
